6% Humic Acids derived from leonardite

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing.

**General Information**

HumaGrow™ is a natural soil amendment which is beneficial to the physical, chemical, and biological properties of the soil, enhancing root quality. Healthy roots are essential to plant growth and survival in the landscape and the garden. Plants treated with HumaGrow™ are healthier, less subject to stress, and produce higher yields with an increased nutritional value. Regular use of HumaGrow™ also decreases the need for extensive fertilizing, thus creating ecological benefits by reducing ground water pollution.

**Compatibility**

**KaPre HumaGrow** is compatible with most common foliar pesticides, liquid nutrients and micronutrients; however, **USER ASSUMES FULL RESPONSIBILITY** to ensure compatibility when tank mixing with other products.

**Do not mix with pesticides or other chemicals without a compatibility test.** An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients. If unfamiliar with HumaGrow use, check with a LidoChem, Inc. representative.

**General Recommendations**

**SHAKE WELL BEFORE USE**

**TURF:** Apply 3 to 8 ounces per 1,000 sq. ft. once a month throughout the growing season. Applications are most beneficial during over-seeding and prior to or during stress periods.

**ORNAMENTALS:** Apply 4 to 6 ounces per 1,000 sq. ft. 1 to 3 times during the season. Applications can be made as a broadcast spray or injected into the irrigation applications should be targeted at the soil; however, foliar contact is not detrimental.

**AGRICULTURE:**

**Application with other nutrients:** Apply at a rate of 1 to 12 quarts per acre with most liquid fertilizers in soil applications.

**Application with pesticides:** Apply at a rate of 1 to 4 quarts per acre with most crop protection sprays. Use enough water to achieve thorough coverage of the crop.

**Fertigation:** Inject **HumaGrow** at 4 to 8 quarts per acre. Apply 2 to 6 times throughout the season either alone or in combination with other nutrients.

**Transplanting or Cutting Applications:** Mix 1 to 2 quarts per 10 gallons of solution.

**DO NOT MIX WITH PRE-EMERGENCE OR SELECTIVE HERBICIDES.**

**Conditions of Sale**

Seller warrants this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions and use. No one other than an officer of the seller is authorized to make any warranty, guarantee, or direction concerning this product. Because time, place, rate of application and other conditions of use are beyond the seller's control, the seller's liability from handling, storage, and use of this product is limited to replacement of the product or a refund of the purchase price.
