

KaPre

Activ8

Soil Microbial Booster
and
Water Dispersible Nitrogen Powder

13-0-0

GUARANTEED ANALYSIS

Total Nitrogen (N)13%
13.0% Water Insoluble Nitrogen

DERIVED FROM: Soybean meal and feather meal

Non Plant Food Ingredients:

Saponin 0.5%

General Recommendations

KaPre™ Activ8 organic nitrogen fertilizer is water dispersible and easy to use. KaPre Activ8 has a very low C:N ratio (2:1) so it begins to release nitrogen quickly and continues delivering nitrogen for 7 to 10 days. KaPre Activ8 will also quickly and dramatically increase populations of beneficial soil and foliar microorganisms.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat or skin.
Avoid contact with eyes, skin and clothing.

Application Rates & Timing

Turfgrass Applications:

Tees, greens, fairways, sports turf and commercial, residential lawns, etc: Apply 0.5 to 0.75 pounds of KaPre Activ8 per 1,000 ft² (0.07 to 0.10 pounds of nitrogen) or 22 to 33 pounds of KaPre Activ8 per Acre (3.0 to 4.5 pounds of nitrogen) as a foliar spray. Begin applications in the spring and apply every 1 to 2 weeks.

For applications after fall over-seeding, apply after seeding and every 1 to 2 weeks as appropriate, until low temperatures or other limiting conditions prevail.

Trees and Ornamental Applications:

Trees, shrubs, ornamentals and gardens: Spray 0.5 to 0.75 pounds of KaPre Activ8 per 1,000 ft² (0.07 to 0.10 pounds of nitrogen) or 22 to 33 pounds of KaPre Activ8 per acre, (3.0 to 4.5 pounds of nitrogen per acre) around landscape plants and trees. Irrigate after application. Apply every 7 - 14 days.

Potted plants: Apply 0.25 to 2.0 ounces of KaPre Activ8 per twelve inches of pot diameter and water thoroughly after application. Apply every 1 to 4 weeks.

Agricultural Applications:

KaPre Activ8 is safe to use on all crops. For new plantings, apply 4 to 20 pounds of KaPre Activ8 per acre. Begin applications at, or just prior to, planting, and, continue applications every 7 - 14 days. For established plants, apply 4 to 20 pounds of KaPre Activ8 every 7 - 14 days.

Mixing Instructions

Note: Use a minimum of 2.5 gallons of water per pound of KaPre Activ8.

Add KaPre Activ8 slowly into a 3/4 full spray tank with agitators running until completely dissolved. KaPre Activ8 is compatible with most agricultural and turf products; however, a simple "jar test" is highly recommended prior to mixing. When using a tank mix, add KaPre Activ8 first and then add the additional products.

NOTE: KaPre Activ8 IS FORMULATED TO BE USED AS A SUSPENSION, and can be used for both foliar and soil applications. This product is recommended as a supplement to a well-balanced fertilizer program only and will not supply the total nutrients required by the crop.
