CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing.

GENERAL INFORMATION**HIGH QUALITY WETTING AGENT:**

Keeps the soil evenly moist so seeds germinate quickly and uniformly. Allows water to easily penetrate the soil so that less runs off the surface into streams, lakes and rivers.

BALANCED BIOSTIMULANT PACKAGE:

Insures rapid early growth with a healthy root system. Puts biologicals right where the new seedlings are emerging so it is easily accessible to the newly developing root systems. This is essential for photosynthesis and subsequent healthy growth.

Seaweed extracts supply micronutrients and often exhibit auxin-, cytokinin-, and/or giberellin-like activity such as cell enlargement and cell elongation. Seaweed extracts promote cell division and cell wall formation.

Humic Acid promotes greater root and shoot growth, root branching, leaf chlorophyll content, and improved nutrient uptake.

Healthy fast-growing plants are more resistant to disease and insects.
