

# Krystal Klear® Arbor Mix

Patented Chelated Micronutrients

## GUARANTEED ANALYSIS

Boron (B) .....	0.25%
Copper (Cu) .....	0.25%
0.25% Chelated Copper (Cu)	
Iron (Fe) .....	3.0%
3.0% Chelated Iron (Fe)	
Manganese (Mn) .....	1.0%
1% Chelated Manganese (Mn)	
Zinc (Zn) .....	0.25%
0.25% Chelated Zinc (Zn)	

Derived from copper EDTA, copper IDS, iron EDTA, iron IDS, manganese EDTA, manganese IDS, zinc EDTA, zinc IDS and boric acid.

### General Information

Krystal Klear Arbor Mix IS FORMULATED TO BE USED IN FERTILIZER SOLUTIONS.

This product is recommended as a supplement to a well balanced fertilizer program only.

### CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing.

**WARNING:** Some crops may be injured by the application of boron. Contact your county agent or field representative before making application.

### Mixing Instructions

**Tank Mixes:** Do not mix with pesticides or other chemicals without a compatibility test. An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients. Agitate and let stand for one hour. If a precipitate forms then apply the products separately.

Krystal Klear Arbor Mix will disperse in water with little or no agitation. Many pesticides can be applied with Krystal Klear Arbor Mix. Follow this mixing sequence: Water, Krystal Klear Arbor Mix and pesticide.

**Tank Buffering:** Water with a pH greater than 6 may diminish pesticide efficacy by way of alkaline hydrolysis. Nutrol™, a registered buffer, may be used to lower and maintain the pH of a spray tank and improve application efficacy.

## Application Instructions

### Foliar Spray Application:

#### Trees, Shrubs and Ornamentals:

##### Application Rates:

Krystal Klear Arbor Mix can be applied as needed throughout the year.

Initial application should be made at a rate of 1.0 gallon of Krystal Klear Arbor Mix per 100 gallons of spray solution.

Subsequent applications should be made at a rate of 0.5 gallons per 100 gallons of spray solution as needed.

Apply 0.5 gallons of spray solution per diameter inch.

When foliar spraying Krystal Klear Arbor Mix in low volume equipment, a maximum of 1 quart per acre is recommended.

For best results, spray early mornings or late afternoons.

### Storage Instructions

Krystal Klear Arbor Mix is a chelate with low corrosivity. It is recommended that Krystal Klear Arbor Mix be stored in fiberglass, polyethylene, or polyolefin. Do not stack pallets.

**CONDITIONS OF SALE:** Seller warrants this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions and use. No one other than an officer of the seller is authorized to make any warranty, guarantee or direction concerning this product. Because time, place, rate of application and other conditions of use are beyond the seller's control, the seller's liability from handling, storage, and use of this product is limited to replacement of the product or a refund of the purchase price.
