

LIDOQUEST 18-3-6

Contains Patented Chelated Micronutrients

United States Patent No. 6,870,026

Liquid Fertilizer with 9% Slow Release Nitrogen

Guaranteed Analysis:

Total Nitrogen (N)	18%
9.0% Slowly Available Water Soluble Nitrogen*	
0.3% Ammoniacal Nitrogen	
8.7% Urea Nitrogen	
Available Phosphate (P ₂ O ₅)	3%
Soluble Potash (K ₂ O)	6%
Boron (B)	0.01%
0.01% Water Soluble Boron	
Iron (Fe)	0.1%
0.1% Chelated Iron (Fe)	
Manganese (Mn)	0.05%
0.05% Chelated Manganese	

*Slowly Available nitrogen from methylene urea

Derived From: Monopotassium phosphate, monoammonium phosphate, potassium carbonate, urea, methylene urea, manganese EDTA, manganese IDS, boric acid, iron EDTA and iron IDS.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing.

WARNING: Some fruit, vegetable, field and ornamental crops may be seriously injured by the application of boron. The application of excessive amounts of boron may impact turf growth or cause serious injury. Contact your county agent field representative or LidoChem agent before making application.

Product Description:

LidoQuest™ 18-3-6 is formulated with 9% of the nitrogen as slow release nitrogen. Both the phosphorus and potassium are soluble and readily available for immediate uptake. LidoQuest fertilizers contain only Krystal Klear™ chelated micronutrients, the only micronutrients formulated with BayPure™. The slow release nitrogen provides a continuous source of nitrogen throughout the growing season. LidoQuest products are ideal for soil or foliar spray applications for turf and ornamentals. LidoQuest 18-3-6 is compatible with fungicides, herbicides, and insecticides and can be mixed and sprayed in one application.

Application Recommendations:

Turf applications: LidoQuest 18-3-6 can be applied throughout the growing season on warm, transitional, and cool season grasses. Applications should begin in early spring and continue through the late fall at rates of 1 to 4 oz per 1,000 sq. ft.

Ornamentals: LidoQuest 18-3-6 can be applied throughout the growing season as a foliar spray at rates of 1 to 4 oz per gallon of spray mix.

Mixing Instructions:

Tank Mixes: Do not mix with pesticides or other chemicals without a compatibility test. An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients. Agitate and let stand for one hour. If a precipitate forms then apply the products separately.

LidoQuest 18-3-6 will disperse in water with little or no agitation. Many pesticides can be applied with LidoQuest 18-3-6. Follow this mixing sequence: Water, LidoQuest 18-3-6 and pesticide.

CONDITIONS OF SALE: Seller warrants this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions and use. No one other than an officer of the seller is authorized to make any warranty, guarantee or direction concerning this product. Because time, place, rate of application and other conditions of use are beyond the seller's control, the seller's liability from handling, storage, and use of this product is limited to replacement of the product or a refund of the purchase price.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm> or by writing to LidoChem, Inc. at the address on this label and referring to the lot/batch # on this container.

WEIGHT PER GALLON: 10.9 pounds
