P311: Call a POISON CENTER or doctor/physician

STEPS TO TAKE IN CASE MATERIAL IS SPILLED

Do not touch or walk through spilled material. Keep Unauthorized personnel away. After wearing and using recommended protective equipment, stop source of spill if safe to do so and dike area to contain spill. See Section 8 for personal protective equipment.

Stop source of spill if safe to do so. Sweep up spilled solid material, being careful not to create dust. Use clean non-sparking tools and equipment. Return sweeping to stock or, if contaminated, place into a chemical waste container for disposal. Clean up residual material by washing area with water. Runoff from fire control or dilution water may cause pollution.

Information concerning the raw materials composing the product in this bag can be obtained by writing to LidoChem, Inc. at the address below and referring to the lot/batch# on this bag.

FIRST AID

INGESTION:

If victim is conscious and alert, give 2-3 glasses of water to drink and do not induce vomiting. **Never give anything to eat or drink to someone who is unconscious, having convulsions, or unable to swallow.** Seek immediate medical attention. Do not leave victim unattended. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. Vomiting may occur spontaneously. If vomiting occurs and the victim is conscious, give water to further dilute the chemical.

EYE IRRITATION:

Hold eyelids open and flush with a steady, gentle stream of water for at least 15 minutes. If present and easy to do, remove contact lenses. Seek immediate medical attention, preferably with an ophthalmologist. If the physician is not immediately available, eye irrigation should be continued for an additional 15 minutes. If it is necessary to transport the patient to a physician and the eye needs to be bandaged, use a dry sterile cloth pad and cover both eyes. DO NOT let victim rub eye(s). Do not attempt to neutralize with chemical agents.

SKIN IRRITATION:

In case of contact, immediately wash with plenty of soap and water for at least 15 minutes. Seek medical attention. Remove contaminated clothing and shoes before reuse or discard if they cannot be thoroughly cleaned.

INHALATION:

Remove victim from immediate source of exposure and assure that the victim is breathing. If breathing is difficult, administer oxygen, if available. If victim is not breathing, administer CPR (cardiopulmonary resuscitation). Seek medical attention.

CONDITION OF SALE: Seller warrants that this product consists of the ingredients specified and is reasonably suited for the purpose stated on this label when used in accordance with the directions under normal conditions of use. The information contained on this label is believed to be accurate and is intended solely in the use of this product; it should not be construed as a guarantee of suitability for a particular application.
