SECTION 1 - General Information And Chemical Product Identification

Trade Name: Sodium Tripolyphosphate Technical Grade

Chemical Name: Sodium Phosphate, Tribasic

Application/Uses: Used in Detergents, chelating agent, water softener

Restrictions: None specified

Distributor Information: LidoChem, Inc. 20 Village Court, Hazlet, NJ 07730, Phone: (732) 888 8000 Fax: (732) 264 2751 * email: info@lidochem.com

Emergency phone #: CHEMTREC - Day or Night - at 800 424 9300

SECTION 2 - Hazard(s) Identification

Classification of the substance or mixture (GHS-US)

Not a hazardous substance or mixture

NOT CLASSIFIED

GHS Precautionary Statements - Prevention, Response, Storage, Disposal

No label elements required

PREVENTION: Not Applicable

RESPONSE: Not Applicable

STORAGE: Not Applicable

P501: Dispose of contents/container to local, state and federal regulations.

OSHA Defined Hazards

This product does NOT contain any products considered hazardous under the Federal OSHA HazCom. Standard 29 CFR 1910.1200.

HNOC - Hazards Not Otherwise Classified

No other hazards classified

Signal Word

None

SECTION 3 Composition/information On Ingredients

Molecular Weight: 367.9 g/mol

Chemical FORMULA: Na₅P₃O₁₀

CAS#: 7758-29-4

Common Name/Synonyms: Sodium Phosphate, Tribasic

% by Wt.: .99

For Chemical Emergencies Call CHEMTREC - Day or Night - at 800 424 9300.

DATE PRINTED: 5/23/2017
SECTION 4 - First Aid Information

Description of first aid measures

General Advice:
All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

If Inhaled:
Remove to fresh air. If breathing becomes difficult, oxygen may be given, preferably with a physician's advice. If not breathing, give artificial respiration. Get medical attention.

In Case Of Skin Contact:
Immediately wash with soap and water for a minimum of 15 minutes. Wash clothing before reuse and discard footwear which cannot be cleaned. Get immediate medical attention if irritation occurs.

In Case Of Eye Contact:
Flush eyes with large quantities of running water for a minimum of 15 minutes. If present and easy to do, remove contact lenses. Hold eyelids apart during the flushing to ensure rinsing of entire surface of the eye and lids with water. DO NOT let victim rub eye(s). Do not attempt to neutralize with chemical agents. Oils/ointments should not be used at this time. Get medical attention if eye irritation occurs.

If Swallowed:
If victim is conscious and alert, give 2-3 glasses of water to drink and induce vomiting by touching back of throat with a finger. Do not induce vomiting or give anything by mouth to someone who is unconscious, having convulsions, or unable to swallow. Seek immediate medical attention. Do not leave victim unattended. Vomiting may occur spontaneously. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. If vomiting occurs and the victim is conscious, give water to further dilute the chemical. See section XVI for further info.

Most important symptoms and effects, both acute and delayed:
No significant signs or symptoms of exposure. May cause eye irritation with redness.

Indication of any immediate medical attention and special treatment needed:
All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

SECTION 5 - Fire And Explosion Data

Suitable Extinguishing Media:
Chemical type foam, CO2 (Carbon Dioxide), water fog, use extinguishing method suitable for surrounding fire.

UnSuitable Extinguishing Media:
None known

Specific Hazards arising from the chemical:
Oxides of sodium, oxides of phosphorus. - non combustible

Special protective equipment and precautions for fire-fighters:
Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters’ protective clothing will only provide limited protection.

Fire-fighting equipment/instructions
This product is a nonflammable inorganic substance. However, hazardous decomposition and combustion products may be formed in a fire situation. Cool exposed containers with water spray to prevent overheating.

Specific Methods
Move containers from fire area if you can do it without risk. Do not scatter spilled material with high pressure water streams. Dike fire-control water for later disposal.
Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:
Wear the appropriate personal protection equipment (Section 8).
Do not touch or walk through spilled material. Keep unauthorized personnel away.
Avoid breathing vapours, mist or gas. Avoid breathing dust.

Environmental Precautions:
Prevent entry into waterways, sewers, basements or confined areas.

Methods and Materials for Containment and Clean Up:
Avoid generating dust. SMALL DRY SPILLS: With clean shovel place material into clean, dry container and cover loosely; move containers from spill area. LARGE SPILLS: Cover powder spill with plastic sheet or tarp to minimize spreading. Clean up residual material by washing area with water. Collect washings for disposal. Decontaminate tools and equipment after cleanup.

Section 7 - Handling and Storage

Precautions for safe handling:
Use appropriate personal protective equipment as specified in Section 8. Further processing of solid materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed.

Conditions for safe storage:
Handle in a well ventilated area. Handle and use in a manner consistent with good industrial/manufacturing techniques and practices. Store in unopened containers under cool and dry conditions. Do not store with, or close to acids. Do not store with, or close to strong bases.

Incompatibilities:
Strong acids, Strong bases, strong oxidizing agents.

Section 8 - Exposure Control and Personal Protection

Occupational Exposure Limits:

Exposure Limits and Appropriate Engineering Controls:
Exposure limits represent regulated or recommended worker breathing zone concentrations measured by validated sampling and analytical methods, meeting OSHA requirements. The following limits (ACGIH, OSHA and other) apply to this material, where, if indicated, S=skin and C=ceiling limit:
ACGIH TLV/TWA PARTICULATES NOT OTHERWISE CLASSIFIED : 10 mg/cubic meter(INHALABLES)

Individual Protection Measures, (Personal Protective Equipment):

Eye Protection
Eye/face protection requirements vary depending upon work environment conditions and material handling practices. Appropriate ANSI Z87 approved equipment should be used for the particular use intended for this material. Use chemical safety glasses with side shields or splash proof goggles and face shield to prevent eye/face contact. Emergency eye wash must be readily accessible to work area.

Skin Protection
Skin contact should be prevented through use of suitable protective clothing, gloves and footwear, selected with regard for use conditions and exposure potential. Consideration must be given both to durability as well as permeation resistance.
Other Protection:
Suitable clothing to prevent contact with skin.

Respiratory Protection
When respirators required, to control nuisance dust levels, use NIOSH/MSHA approved equipment based on actual/potential airborne concentration and in accordance with the latest OSHA standard (29 CFR 1910.134) and/or ANSI Z88.2 recommendations.

Ventilation Limits:
If dust is generated, provide local exhaust ventilation to control airborne levels below the ACGH TLV-TWA exposure limit for Particulates Not Otherwise Classified of 10 mg/M3 for inhalable particles and 3 mg/m3 for respirable.

Hygienic Practices:
All food / smoking materials should be kept in a separate area away from the storage/use location. Eating, drinking and smoking should be prohibited in areas where there is a potential for significant exposure to this material. Before eating, drinking or smoking, hands and face should be thoroughly washed. Facilities storing or using this material should be equipped with an eyewash and safety shower.

Section 11- Toxicological Information

Information On The Likely Routes Of Exposure: Inhalation, ingestion and dermal.

Symptoms Related To The Physical, Chemical And Toxicological Effects:

Inhalation Effects:
LC50 Inhalation - Rat - male and female - 4 h - > 0.39 mg/l LD50

Skin Effects:
This material is not expected to cause significant irritation to the skin.

Dermal Toxicity:
LD50 Dermal - Rabbit - 4,640 mg/kg

Eye Effects:
Eyes - Rabbit - Result: No eye irritation (OECD Test Guideline 405)

Ingestion Effects:
LD50 Oral - Rat - male and female - > 2,000 mg/kg (OECD Test Guideline 401)

Sensitization:
in vivo assay - Mouse - Result: Did not cause sensitization on laboratory animals. (OECD Test Guideline 429)

Carcinogenicity/Mutagenicity:
Not listed as a carcinogen by IARC, NTP, OSHA. Mutagenicity information is not available.
in vitro assay S. typhimurium Result: negative

Reproductive Effects:
Not data available

Neurotoxicity:
Not data available

Target Organs:
Not data available STOT or Repeated exposure

Additional Toxicological Information:
Ingestion of large doses is expected to cause vomiting.

Section 12- Ecological Information

Ecotoxicity: Not data available
Degradability: Not data available
Bioaccumulative potential: Not data available
Mobility in the Soil: Not data available

Additional Adverse effect on environment:
May cause adverse environmental impact if material reaches waterways.
SECTION 13 - Disposal Considerations

Disposal Instructions and Regulations:
(Consult federal, state, and local regulations) If material cannot be salvaged, a method of disposal is in a landfill in accordance with all local, state and federal regulations. Dispose of at a supervised incineration facility or an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal. Chemical additions, processing or otherwise altering this material may make the waste management information presented incomplete, inaccurate or otherwise inappropriate.

Hazardous Waste Code: Not considered a hazardous waste

Container Disposal Information:
Please be advised that state and local requirements for waste disposal may be more restrictive or otherwise different from federal laws and regulations. Consult state and local regulations regarding the proper disposal of empty containers.

Section 14 - Transport Information

US DOT, IATA, IMO, ADR:
Proper Shipping Name: Sodium Phosphate, Tribasic

D. O. T. Hazard Class: Not regulated by D.O.T. UN #: None
Label Requirement: None RQ: 5,000 lbs.
Placard: None CAS: 7758-29-4
Packing Group: N/A ERG Book Information: 171
Environment Hazards: No Marine Pollutant: No
Special Precautions: No IATA: No

Section 15 - Regulatory Information

US Federal - OSHA Status:
This product does NOT contain any products considered hazardous under the Federal OSHA HazCom. Standard 29 CFR 1910.1200.

TSCA Status:
Listed/Reportable

U.S. SARA Reporting Requirements:

SARA Title III Hazard Classes Section 302 - EXTREMELY HAZARDOUS SUBSTANCES:
This product does NOT contain ingredients listed in Appendix A and B as Extremely Hazardous substances.

SARA Title III Hazard Classes Sections 311/312:
Not applicable

SARA Section 313 Toxic Chemicals:
This product contains the following toxic chemical subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right to Know Act:

CAS# Chemical Name:
This material does NOT contain any chemical components with known CAS numbers that exceed the threshold reporting levels.

SARA Superfund Section 110:
This product does contain a hazardous substance(s) as listed on the Priority List of CERCLA Hazardous substances.

CERCLA, 40 CFR 117, 302:
This product does NOT contain ingredients specified in the List of Extremely Hazardous Substances.

CERCLA listed substances are:
CAS# 7758-29-4 Triphosphoric Acid, Penta sodium salt RQ 5,000 lbs.

For Chemical Emergencies Call CHEMTREC - Day or Night - at 800 424 9300. DATE PRINTED: 5/23/2017
This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act.

No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.

Not considered a hazardous waste.

This product does NOT contain ingredients listed on the Michigan Critical Materials Register.

This product does NOT contain a chemical or chemicals subject to California Proposition 65.

This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act.

No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.

Not considered a hazardous waste.

This product does NOT contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act.

No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.

Not considered a hazardous waste.

This product does NOT contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act.

No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.

Not considered a hazardous waste.

This product does NOT contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act.

No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.

Not considered a hazardous waste.

This product does NOT contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act.

No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.

Not considered a hazardous waste.

This product does NOT contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act.
