

# Dipotassium Phosphate, FCC Grade

## SAFETY DATA SHEET

Page: 1 of 8

SDS#: 1135

Review/Revision Date: 06/28/19

### SECTION 1 - General Information And Chemical Product Identification

Trade Name: **Dipotassium Phosphate, FCC Grade**

CAS #: **7758-11-4**

Chemical Name: **Potassium Phosphate, Dibasic**

Product Code:

Application/Uses/ **Food Additive and buffering agent**

**DKPFFGES**

Restrictions **None specified**

Distributor Information **LidoChem, Inc. 20 Village Court, Hazlet, NJ 07730, Phone: (732) 888 8000  
Fax: (732) 264 2751 \* email: info@lidochem.com**

Emergency phone #: **CHEMTREC - Day or Night - at 800 424 9300**

### SECTION 2 - Hazard(s) Identification

#### Classification of the substance or mixture (GHS-US)

NOT CLASSIFIED

No label elements required.

#### Physical Hazards

NONE

#### Hazard Statement

No Label Element(s) required

#### GHS Precautionary Statements - Prevention, Response, Storage, Disposal

No label elements required

PREVENTION: Not Applicable

RESPONSE: Not Applicable

STORAGE: Not Applicable

P501: Dispose of contents/container to local, state and federal regulations.

P233: Keep container tightly closed

#### OSHA Defined Hazards

This product does NOT contain any products considered hazardous under the Federal OSHA HazCom. Standard 29 CFR 1910.1200.

#### HNOC - Hazards Not Otherwise Classified

No other hazards classified

Signal

Word

None

### SECTION 3 Composition/information On Ingredients

Molecular Weight: **174.18**

Chemical FORMULA: **K<sub>2</sub> HPO<sub>4</sub>**

CAS#:	Common Name/Synonyms:	% by Wt.
<b>7758-11-4</b>	<b>Potassium Phosphate</b>	<b>100%</b>

## SECTION 4 - First Aid Information

### Description of first aid measures

#### General Advice:

All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

#### If Inhaled:

Remove to fresh air. If breathing becomes difficult, oxygen may be given, preferably with a physician's advice. If not breathing, give artificial respiration. Get medical attention.

#### In Case Of Skin Contact:

In case of contact, immediately wash with plenty of soap and water for at least 5 minutes. Seek medical attention. Remove contaminated clothing and shoes before reuse or discard if they cannot be thoroughly cleaned.

#### In Case Of Eye Contact:

Flush eyes with large quantities of running water for a minimum of 15 minutes. If present and easy to do, remove contact lenses. Hold eyelids apart during the flushing to ensure rinsing of entire surface of the eye and lids with water. DO NOT let victim rub eye(s). Do not attempt to neutralize with chemical agents. Oils/ointments should not be used at this time. Get medical attention if eye irritation occurs.

#### If Swallowed:

If victim is conscious and alert, give 2-3 glasses of water to drink and DO NOT INDUCE VOMITING unless instructed to do so by a physician. **Never give anything to eat or drink to someone who is unconscious, having convulsions, or unable to swallow.** Seek immediate medical attention. Do not leave victim unattended. Vomiting may occur spontaneously. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. If vomiting occurs and the victim is conscious, give water to further dilute the chemical.

#### Most important symptoms and effects, both acute and delayed:

Possible irritation to eyes, nose and throat. Large doses may cause nausea, vomiting and diarrhea. Systemic oral toxicity is extremely rare and has consisted of acidosis and hypocalcemia tetany.

#### Indication of any immediate medical attention and special treatment needed:

All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

## SECTION 5 - Fire And Explosion Data

### Suitable Extinguishing Media:

Not combustible. Use extinguishing method suitable for surrounding fire.

### Unsuitable Extinguishing Media:

None known

### Specific Hazards arising from the chemical:

Hazardous combustion products: Oxides of phosphorus, oxides of potassium.

### Special protective equipment and precautions for fire-fighters:

Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing. Structural firefighters' protective clothing will only provide limited protection.

### Fire-fighting equipment/instructions

Keep unnecessary people away, isolate hazard area and deny entry. Evacuate residents who are downwind of fire. Dike area to prevent runoff and contamination of water sources. Dispose of fire control water later. LARGE FIRES: Move containers from fire area if you can do it without risk. LARGE FIRES: Do not scatter spilled material with high pressure water streams.

### Specific Methods

Standard procedure for chemical fires.

**Section 6 - Accidental Release Measures**

**Personal precautions, protective equipment and emergency procedures:**

Do not touch or walk through spilled material. Keep Unauthorized personnel away. After wearing and using recommended protective equipment, stop source of spill if safe to do so and dike area to contain spill. See Section 8 for personal protective equipment.

**Environmental Precautions:**

Runoff from fire control or dilution water may cause pollution. Large spills should be handled according to a predetermined plan. Consult with environmental regulatory agencies for acceptable procedures of disposal.

**Methods and Materials for Containment and Clean Up:**

Stop source of spill if safe to do so. SMALL SPILLS: DO NOT SWEEP. Vacuum up and place in an appropriate closed container. Take up with sand or other non-combustible absorbent material and place into containers for later disposal. Clean up residual material by washing area with water and detergent. Collect washings for disposal. DO NOT RETURN MATERIAL TO ITS ORIGINAL CONTAINER. Clean up by trained personnel only.

**Section 7- Handling and Storage**

**Precautions for safe handling:**

This is a food ingredient intended for human consumption. Keep containers closed when not being used. Store in an area that is cool and dry. Avoid creating dust.

**Conditions for safe storage:**

Store in a well-ventilated place. Keep container tightly closed. Store in an area that is cool, dry and sanitary. Avoid creating dust.

**Incompatibilities:**

Strong oxidizing agents

**Section 8 - Exposure Control and Personal Protection**

**Occupational Exposure Limits:**

Chemical Identity:	CAS #:	Exposure Limit Values		SOURCE	OSHA/PPM
		TWA	STEL		PEL
Potassium Phosphate	7758-11-4	5	5	ACGIH Threshold Limit Values	
				ACGIH Threshold Limit Values	
				ACGIH Threshold Limit Values	

**Exposure Limits and Appropriate Engineering Controls:**

Exposure limits represent regulated or recommended worker breathing zone concentrations measured by validated sampling and analytical methods, meeting OSHA requirements. The following limits (ACGIH, OSHA and other) apply to this material, where, if indicated, S=skin and C=ceiling limit: Particulates Not Otherwise Regulated Respirable Fraction: OSHA TWA: 5 mg/cu M

**Individual Protection Measures, (Personal Protective Equipment):**

**Eye Protection**

Eye and face protection requirements will vary dependent upon work environment conditions and material handling practices. Appropriate ANSI Z87 approved equipment should be selected for the particular use intended for this material. Wear safety glasses. An emergency eye wash must be readily accessible to the work area.

**Skin Protection**

Skin contact should be minimized through use of gloves and suitable long sleeved clothing (i.e., shirts and pants). Consideration must be given both to durability as well as permeation resistance.

**Other Protection:**

Minimize breathing dust. Avoid prolonged or repeated breathing of dust and contact with skin. Remove contaminated clothing; launder before reuse. Cleanse skin thoroughly after contact, before meals and end of work period

**Respiratory Protection**

When respirators are required, select NIOSH/MSHA approved equipment based on actual or potential airborne concentrations and in accordance with the latest OSHA standard (29 CFR 1910.134) and/or ANSI Z88.2 recommendations. For limited exposure use an N95 dust mask. For prolonged exposure use an air- purifying respirator with high efficiency particulate air (HEPA) filters. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

**Ventilation Limits:**

Where engineering controls are indicated by use conditions or a potential for excessive exposure exists, the following traditional exposure control techniques may be used to effectively minimize employee exposures: local exhaust ventilation at the point of generation.

**Hygienic Practices:**

All food / smoking materials should be kept in a separate area away from the storage/use location. Eating, drinking and smoking should be prohibited in areas where there is a potential for significant exposure to this material. Before eating, drinking or smoking, hands and face should be thoroughly washed. Facilities storing or using this material should be equipped with an eyewash and safety shower.

**Section 9 - Physical and Chemical Properties**

**Appearance And Odor:** Odorless, fine white granular

**pH:** 8.7 - 9.4

**Melting Point:** No data available

**Freezing Point:** No data available

**Boiling Point:** No data available

**Flash Point:** Not flammable

**Evaporation Rate:** No data available

**Solubilities:** 1600 g/l @20°C

**Specific Gravity:** No data available

**Bulk Density:** 0.98 g/ml

**Other Information:**

**Flammable Limits:** Non flammable

**UEL:** Not relevant

**LEL:** Not relevant

**Vapor Pressure(mm/hg):** No data available

**Vapor Density(air=1):** No data available

**Autoignition Temp:** No data available

**Decomposition Temp:** No data available

**Reactivity In Water:** No data available

**Viscosity:**

**Section 10 - Stability and Reactivity**

**Chemical Stability and Reactivity:**

This material is stable under normal handling and storage conditions.

**Possible Hazardous Reactions:**

Hazardous polymerization will not occur.

**Conditions to Avoid:**

Moisture

**Incompatible Materials:**

Strong oxidizing agents

**Hazardous Decomposition Products:**

Oxides of phosphorus, oxides of potassium.

## Section 11- Toxicological Information

**Information On The Likely Routes Of Exposure:** Inhalation, Ingestion and Dermal

**Symptoms Related To The Physical, Chemical And Toxicological Effects:**

**Inhalation Effects:**

No test data found for product.

**Skin Effects:**

Minimally irritating at 500 mg/24 hours, Rabbit.

**Dermal Toxicity:**

No test data found for product.

**Eye Effects:**

Mildly irritating to unwashed eyes, practically Nonirritating to wash eyes (Rabbit).

**Ingestion Effects:**

Practically non toxic LD50 >500 mg/kg

**Sensitization:**

Not available.

**Carcinogenicity/Mutagenicity:**

This product does not contain any substances that are considered by OSHA, NTP, IARC or ACGIH to be "probable" or "suspected" human carcinogens. No information on mutagenicity found for this product.

**Reproductive Effects:**

Not available.

**Neurotoxicity:**

Not available.

**Target Organs:**

Not available.

**Additional Toxicological Information:**

None.

## Section 12- Ecological Information

**Ecotoxicity:** Not data available.

**Degradability:** Not data available.

**Bioaccumulative potential:** Not data available.

**Mobility in the Soil:** Not data available.

**Additional Adverse effect on environment:**

While the alkalinity of this material is readily reduced in natural waters, the resulting phosphate may persist indefinitely or incorporate into biological systems.

### SECTION 13 - Disposal Considerations

#### Disposal Instructions and Regulations:

Offer surplus and non-recyclable solutions to a licensed disposal company. Dispose of as unused product as contaminated packaging. In unused condition, this product is NOT considered to be a RCRA defined hazardous waste by characteristics/listings. It is the responsibility of the waste generator to evaluate whether his wastes are hazardous by characteristic/listing. Dispose in accordance with all local, state and federal regulations. Chemical additions, processing or otherwise altering this material may make the waste management information presented incomplete, inaccurate or otherwise inappropriate.

**Hazardous Waste Code:** Not considered a hazardous waste

#### Container Disposal Information:

Be advised that state/local requirements for container disposal may be more restrictive or otherwise different from federal laws and regulations. Consult state/local regulations regarding proper disposal of container.

### Section 14 - Transport Information

#### US DOT, IATA, IMO, ADR:

**Proper Shipping Name:** Dipotassium Phosphate

**D. O. T. Hazard Class:** Not Regulated by D.O.T.

**UN #:** N/A

**Label Requirement:** None

**RQ:** N/A

**Placard:** None

**CAS:** 7758-11-4

**Packing Group:** N/A

**ERG Book Information:** None.

**Environment Hazards:** No

**Marine Pollutant:** No

**Special Precautions:** No

**IATA:** Not regulated as dangerous goods.

### Section 15 - Regulatory Information

#### US Federal - OSHA Status:

This product does NOT contain any products considered hazardous under the Federal OSHA HazCom. Standard 29 CFR 1910.1200.

#### TSCA Status:

Not Listed/Non-reportable

#### U.S. SARA Reporting Requirements:

#### SARA Title III Hazard Classes Section 302 - EXTREMELY HAZARDOUS SUBSTANCES:

This product does NOT contain ingredients listed in Appendix A and B as Extremely Hazardous substances.

#### SARA Title III Hazard Classes Sections 311/312:

N/Ap

#### SARA Section 313 Toxic Chemicals:

This product contains the following toxic chemical subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right to Know Act:

**CAS#**      **Chemical Name:**

This material does not contain any chemical components with known CAS numbers that exceed the threshold reporting levels.

#### SARA Superfund Section 110:

This product does NOT contain ingredients listed as hazardous substances on the Priority List of CERCLA Hazardous substances.

#### CERCLA, 40 CFR 117, 302:

This product does NOT contain ingredients specified in the List of Extremely Hazardous Substances.

#### CERCLA listed substances are:

none

Dipotassium Phosphate, FCC Grade  
SAFETY DATA SHEET

Other Federal Reporting Requirements:

CAA: This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act  
CWA: No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.  
RCRA: Not considered a hazardous waste.

State Reporting Requirements:

State Right to Know Laws:

CAS#	State RTK	Chemical Name
		None

CALIFORNIA PROPOSITION 65:

To the best of our knowledge, this product does NOT contain any of the listed chemicals, which the state of California has found to cause cancer, birth defects or other reproductive harm. For more information, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

Michigan Critical Materials:

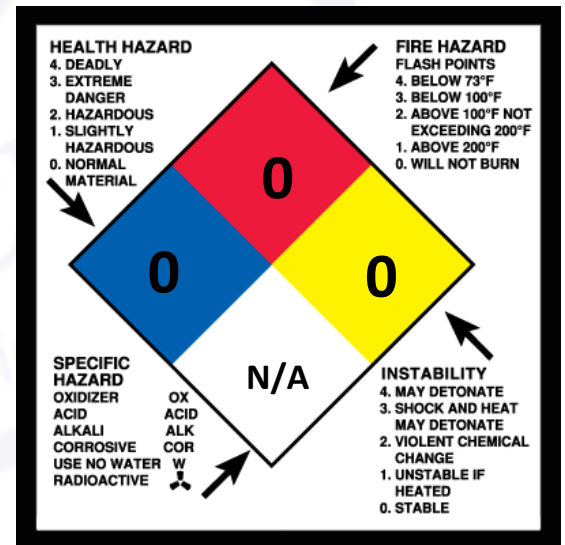

This product does NOT contain ingredients listed on the Michigan Critical Materials Register.

Global Lists/International Inventories:

Canada CEPA: All intentional ingredients are listed on DSL.  
Canada WHMIS: Not controlled.

SECTION 16 - Other Information

5-5-15 SDS reviewed - updated to GHS requirements. This replaces all previous MSDS's -  
8-20-18 - Reviewed, updated California Proposition 65 statement, this replaces all previous SDS's.  
6-28-19 Reviewed Spec, no changes, SDS review, TSCA Not listed on Current Inventory.

Date of last revision:

6-28-2019

Reach Number EU

**Dipotassium Phosphate, FCC Grade**  
**SAFETY DATA SHEET**

LidoChem, Inc.

Page: 8 of 8

NOTICE: OSHA STANDARD 29 CFR 1910.1200 requires that information be provided to employees regarding the hazards of chemicals by means of a Hazard Communication Program including training, labeling, Material Safety Data Sheets, and access to written records. We request that you, and it is your legal duty, make all information in this Material Safety Data Sheet available to your employees.

**Key Legend Information:**

N/Ap:	Not Applicable	ND:	Not Determined
N/R:	Not Rated	NDA:	No Data Available
ACGI:	American Conference of Govr'ntal Industrial Hygienists	TLV:	Threshold Limit Value

The information and recommendations contained herein are based upon data believed to be correct. However, no guarantee or warranty of any kind expressed or implied is made with respect to the information contained herein. This Safety Data Sheet was prepared to comply with OSHA Hazard Communication standard. (29 CFR 1910.1200 HazCom 2012). This supersedes any previous information. Since the actual use by others is beyond our control, no guarantee, expressed or implied, is made by LidoChem, Inc. as to the effects of such use or the results to be obtained, nor does LidoChem, Inc. assume any liability arising out of use, by others, of the products referred to herein. Nor is the information herein to be construed as absolutely complete since additional information may be necessary or desirable when particular or exceptional conditions or circumstances exist because of applicable laws or government regulations. All LidoChem Inc. SDS's are reviewed every three years or sooner if necessary. Please check the Review Date on Page 1 for most current version. Please request a new SDS from LidoChem, Inc. if the date is older than 3 years.
